<p>Evidential Support:</p>  <p>The screenshot shows a Zoom meeting interface. The main window displays a slide titled "Theories on Multiculturalism" with the following text: "Two major theories- Melting Pot and Salad Bowl. Salad Bowl-This model describes a heterogeneous society where people coexist but retain at least some unique characteristics of their traditional culture. In this model, different cultures are brought together like ingredients in a salad, but these individual cultures retain their own flavours, instead of merging into a single homogeneous culture. Melting Pot – This model proposes that various immigrant groups will tend to “melt together,” deserting their individual cultures and ultimately becoming fully assimilated into the predominant society." The slide also includes a small image of a salad bowl. The Zoom interface shows a grid of participants on the right, including Suman Sahu, Deepalika Deb, MUSHKAN CHERY, Bhagyashree Madhi, Shejal Dutta, Anju Sah, Kriti Mohanta, and 21 others. The meeting title is "Guest Lecture-4" and the time is 4:30 PM.</p>
