From the analysis of the above table it is observed that in the batch (2018-21)

- Result is Excellent
- Percentage of 1st class is Excellent
- Percentage of higher studies is below average (Poor economic background of the Family, language barrier, Maximum students belong to tea garden community)
- Percentage of horizontal studies is also below average.
- Number of employability is good. (The students securing Job in the batch shown in the table are not the students of passing the same session. Employability is not in regular basis for the passed out students of the department. It reflects overall scenario of employability of the students passed out long back)*.
